EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. R. Anderson on 11/24/04.

The application has been amended as follows:

In the Claims:

Claims 28-31 are canceled.

2. This application is in condition for allowance except for the presence of claims 28-31 to an invention non-elected with traverse. Invention in claims 1-27 and 28-31 are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination as claimed does not require the particulars of logical functions as claimed for patentability. The subcombination has separate utility such as identifying whether padding is required in a row of texture data of a macroblock in a video object plane.

3. The following is an examiner's statement of reasons for allowance: Claims 1-27 are considered allowable over the prior art because none of the references of record alone or in combination suggest, disclose, or teach a system or method for using a processing device to pad data in a macroblock of a video object plane by averaging corresponding data elements and using data from the same column of the macroblock all together as claimed. The closest prior art, Berekovic et al, discloses conventional padding instructions, either singularly or in combination, fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. Lee whose telephone number is (703) 308-7584. The examiner can normally be reached on (703) 308-7584.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Kelley can be reached on (703) 305-4856. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
